Graduate Student Support Plan

GSSP Slot Funds Should be Allocated:

1. The base for future allocations should be the 2000-01 permanent allocations and any new funds that become available in the future should be allocated in the same proportion as the 2000-01 base:

   Agree ______  Disagree______

   Rationale:

   _______________________________________________________________
   _______________________________________________________________
   _______________________________________________________________

2. According to the number of students eligible for the Plan during the previous year:

   Agree ______  Disagree______

   Rationale:

   _______________________________________________________________
   _______________________________________________________________
   _______________________________________________________________

3. Based on the history of utilization of allocated students during previous years.

   Agree ______  Disagree______

   Rationale:

   _______________________________________________________________
   _______________________________________________________________
   _______________________________________________________________

4. Doctoral students should be given preference over master=s students.

   Agree ______  Disagree______
5. Master’s students should be given preference over doctoral students.

Agree _____  Disagree______

Rationale:

__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________

6. US citizens and permanent residents should be given preference over international students:

Agree _____  Disagree______

Rationale:

__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________

7. Slots should be allocated to units in proportion to the funds the unit contributes to the Plan, or to total graduate student support (stipend and Plan):

Agree _____  Disagree______

Rationale:

__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________

8. Units that meet enrollment targets (quantity, quality and diversity) should be rewarded while those that do not should be penalized in the allocation of slots:

Agree _____  Disagree______
9. New graduate degree programs should be given special priority for slots:
Agree ______  Disagree______
Rationale:
_________________________________________________________________________
_________________________________________________________________________
_________________________________________________________________________

10. Units that have the potential to strengthen programs in university thrust areas should be given priority for slots:
Agree _____  Disagree_____
Rationale:
_________________________________________________________________________
_________________________________________________________________________
_________________________________________________________________________

11. The Graduate School should continue to allocate slots to colleges and colleges to departments and programs.
Agree ______  Disagree______
Rationale:
_________________________________________________________________________
_________________________________________________________________________
_________________________________________________________________________

12. The Graduate School should allocate slots to the colleges for departmental based graduate programs and directly to all interdepartmental or interdisciplinary
graduate programs.

Agree ______  Disagree______

Rationale:

_______________________________________________________________
_______________________________________________________________
_______________________________________________________________

13. The Graduate School should allocate slots directly to all graduate programs, department based and interdepartmental/interdisciplinary:

Agree ______  Disagree______

Rationale:

_______________________________________________________________
_______________________________________________________________
_______________________________________________________________

14. The Graduate School should set aside slots for students who are enrolled in one curriculum and employed by a unit that does not own with the curriculum:

Agree ______  Disagree______

Rationale:

_______________________________________________________________
_______________________________________________________________
_______________________________________________________________
